Purpose of Secondary/Deduct Meter (ie: irrigation system, lawn watering, garden): _____

General Information

- I understand that secondary/deduct meters are read in October and that there is a \$2.00 fee per reading of the secondary meter. Credit to be given on the November water bill.
- All plumbing work is the responsibility of the owner.
- After the plumber has installed the meter and isolate the lines for the second meter, the property owner must call the Village water office to schedule a work order to have an inspection.
- Once the application and full payment is received, the meter and setter are to be picked up from the Municipal Building.
- If an irrigation system is to be installed or connected to the secondary/deduct meter, the owner understands they will be required to install a backflow device. The backflow device will require an annual inspection at the expense of the owner.
- All work must be in compliance with Village of Plain City standard specifications.
- I understand that anyone caught tampering with the meter once it is installed, or making any attempt to utilize the meter or its appurtenances in any way that it was not intended, is subject to the loss of privileges of the secondary meter and will be penalized.
